

## A Quilcene Bay & Projects Vicinity Map

Quilcene Bay on the Hood  
Canal

### Big Quilcene work site.

Note the completed projects that are restoring the estuarial complexes of the Quilcene Bay.

## B. Project Site Aerial Photograph Indicating the Boundaries of Proposed Work.

On the top picture looking southeast, the WDFW pond dike is immediately to the left of the bottom right portion of the Schinke Dike Removal location. You can see the unenhanced boundary of the WDFW encloses 3.3 acres and the dike is breached in its top left corner.

The bottom picture looks east with the 3.3 acre WDFW Dike outlined to the right of the picture.
